VistaMoney VRTech Prepaid MasterCard

How It Works?

Loading Your Card: Most companies offer direct deposit of your payroll into your checking/savings account, as well as government issued checks, such as Social Security, unemployment, tax refunds, and disability. Money can also be transferred onto your card from your personal checking account. Money loading services, such as Green Dot MoneyPak, allow you to deposit cash onto your card as you need it.

Benefits: Our easy-to-use online card management center allows you to track all purchases, deposits and withdrawals made with your prepaid card. The Bill Pay feature displays all of your monthly expenses online and with a simple click of a button, gives you the ability to pay them with money you've loaded onto your prepaid card. Your VistaMoney VRTech Prepaid MasterCard reports positive payment behavior to the three major credit bureaus, creating a positive trade line which can positively impact your credit score.

Withdrawing Money: You can use your VistaMoney VRTech Prepaid MasterCard to make purchases almost anywhere, including online, which will instantly deduct the money from your account balance to the merchant. Retrieve cash from ATM withdrawals and pay out your bills directly through your online Bill Pay center.

Bill Pay Payments Report to All Three Major Credit Bureaus-
Experian, Equifax & TransUnion
