VistaMoney VRTech Prepaid MasterCard

It's no surprise that debit card popularity is on the rise. Why borrow money to pay back with a credit card, when you can manage and spend the money you already have? VistaMoney VRTech Prepaid MasterCard offers the convenience and flexibility of having a credit card, but the benefits of cash, without the requirement of a credit check or bank account.

Positively Impact Your Credit

Approximately 50 million Americans have little or no credit history on file with the Experian, Equifax and TransUnion bureaus but earn a steady income and meet regular payment obligations of rent, utilities and recurring bills. These potential creditworthy customers are often denied for credit offerings due to their "thin" or nontraditional credit history. Using the VistaMoney VRTech Prepaid MasterCard's Bill Pay feature, your positive payment behavior towards these expenses will be reported to all three major credit bureaus.

Pay Bills Online

Manage your bills in minutes! Pay utilities, credit cards, mortgage, cable, mobile phone providers and more-anywhere in the U.S! Bill Pay is a fast, easy and convenient way to pay your bills online. With Bill Pay you can setup one-time or recurring payments to anyone located in the United States. Payments are guaranteed and more secure than using checks, cash, or money orders.

Shop

The VistaMoney VRTech Prepaid MasterCard is a trouble-free and secure alternative to using cash or checks without a credit check or bank account required. It offers the security of protected cash and the flexibility of spending at millions of retail locations, including online, wherever MasterCard debit cards are accepted. As purchases are made, funds are immediately deducted from the available card balance. You can only spend the money that you have on the card- the perfect way to control spending!

Cash When You Need It

It's more convenient than carrying cash and safer as well, as the MasterCard Zero Liability coverage protects you from unauthorized purchases. You're always just a minute away from your money because you can withdraw cash at any ATM that displays the MasterCard, Maestro, or Cirrus acceptance marks, in over 210 countries.
